Canadian Apprenticeship Service Employer Resource Breakfast

Join us for breakfast at the wonderful Community Employment Choices office, while you learn about the Government of Canada's Canadian Apprenticeship Service (CAS) and how to access funding to support the hiring and retention of new, Level One apprentices in 39 Red Seal trades.

CAF-FCA's CAS is being delivered through a collaboration of industry-leading partners: BuildForce Canada, SkillPlan, ApprenticeSearch.com, Aboriginal Apprenticeship Board and the Canadian Construction Association. The program will provide a range of supports, in addition to the grant, to the expert trainers of Canada's future skilled trades workforce.

You will also have an opportunity to learn about the supports and resources available through Community Employment Choices as well as time to network with other businesses in your community.
